„European Agricultural Fund for Rural Development: Europe investing in rural areas”

„Promoting Innovation Activities”

Polish National Rural Network The Innovation Network in Agriculture and Rural Areas (SIR)

Estonia, Tallinn and Padise 21-22 January 2020

Aleksander Bomberski
National Innovation Broker
Agricultural Advisory Centre

NRN

- **One of the objectives of the National Rural Network (in accordance with RDP 2014-2020) is "Support for innovation in agriculture, food production, forestry and in rural areas"**

SIR

- **The Network for Innovation in Agriculture and Rural Areas (SIR) operates within the framework of the National Rural Network and is of an open nature. The network was created to support innovation in agriculture, food production, forestry and rural areas.**

NRN

- **One of the objectives of the National Rural Network (in accordance with RDP 2014-2020) is "Support for innovation in agriculture, food production, forestry and in rural areas"**

As part of the activities implemented by the National Rural Network, the call for proposals for action 5 is organized:

"Searching for NRN partners to cooperate under measure 16 „Cooperation”, under the RDP 2014-2020 and to facilitate this cooperation"

The measure is intended to help in establishing Operational Groups for Innovation (EPI) and in developing projects by EPI Operational Groups.

- **One of the objectives of the National Rural Network (in accordance with RDP 2014-2020) is "Support for innovation in agriculture, food production, forestry and in rural areas"**

1. Activation of inhabitants of rural areas in order to create partnerships for the implementation of innovative projects
2. Dissemination of knowledge in the field of innovative solutions in agriculture, food production, forestry and in rural areas, creation of short supply chains,
3. Supporting the development of entrepreneurship in rural areas by raising the level of knowledge and skills
4. Promotion of the quality of life in the countryside or the promotion of the countryside as a place to live and develop professionally;
5. Supporting the development of digital society in rural areas by raising the level of knowledge in this area;
6. Dissemination of knowledge regarding project management in the field of rural development;
7. Dissemination of knowledge in the field of local development planning, taking into account the economic, social and environmental potential of the area

- **One of the objectives of the National Rural Network (in accordance with RDP 2014-2020) is "Support for innovation in agriculture, food production, forestry and in rural areas"**

As part of the activities implemented by the National Rural Network, the call for proposals for action 2 is organized:

Action 2: Actions to create a network of contacts for advisers and services supporting the implementation of innovation in rural areas

The action is to serve:

1. facilitating the creation and functioning of networks of contacts between farmers, advisory entities, scientific units, entrepreneurs of the agri-food sector,
2. facilitating the exchange of know-how and good practices in implementing innovation in agriculture and in rural areas.

SIR

- The Network for Innovation in Agriculture and Rural Areas (SIR) operates within the framework of the National Rural Network and is of an open nature. The network was created to support innovation in agriculture, food production, forestry and rural areas.

SIR specific objectives:

1. Facilitating the creation and functioning of a network of contacts between farmers, advisory entities, scientific units, entrepreneurs of the agri-food sector and other entities supporting the implementation of innovation in agriculture and in rural areas.
2. Facilitating the exchange of know-how and good practices in the field of innovation in agriculture and in rural areas.
3. Assistance in **establishing EIP-AGRI Operational Groups** for innovation and assistance in the development of projects by operational groups and innovation partnerships

SIR

- **The Network for Innovation in Agriculture and Rural Areas (SIR) operates within the framework of the National Rural Network and is of an open nature. The network was created to support innovation in agriculture, food production, forestry and rural areas.**

SIR structure:

1. Partners forming the Network: farmers, entrepreneurs, scientists, consultants, NGOs etc.
2. Innovation brokers: the national innovation broker as part of the Agricultural Advisory Center and regional innovation brokers as part of the Voivodship Agricultural Advisory Centers.
3. SIR coordinators: national coordinators within the Agricultural Advisory Center and regional coordinators within the Provincial Agricultural Advisory Centers

Structure of Innovation Network in Agriculture and Rural Areas (SIR)

- **Measure 16 „Cooperation” under RDP 2014-2020 for EIP-AGRI Operational Groups implementing innovative projects in agriculture and rural areas**

Help and main mission:

1. In the Agricultural Advisory Center in Brwinów and in all Regional Agricultural Advisory Centers, under the Network for Innovation in Agriculture and Rural Areas (SIR), there are innovation brokers who provide free assistance to emerging EPI Operational Groups and facilitate the exchange of knowledge and good practices in innovation in agriculture, food production and in rural areas.
2. The implementation of the measure should contribute to improving the profitability of farms, increasing innovative solutions in Polish agriculture, food production and in rural areas, and the results of individual projects should serve a broad group of recipients, not individual entities.

PARP

- **Polish Agency for Enterprise Development subordinate to the Ministry of Development. Manages funds from the state budget and the European Union, intended to support small and medium-sized enterprises and the development of human resources.**

Mission: The goal of the Agency's operation is the implementation of economic development programs that support the innovative and research activities of small and medium-sized enterprises (SMEs), regional development, export growth, development of human resources and the use of new technologies in business operations.

National programs implemented by PARP:

Innovation Vouchers – Purchase of a service from a scientific unit consisting in the development of a new or significantly improved product, service, technology or new design project

Operational Program „Innovative Development” – Support for innovative enterprises and research institutes at all stages: from an idea, through research and development, to introducing innovations to the market.
